7. Raise hand feature.....	9
8. Reactions.....	10
9. Screensharing.....	11
10. Spotlighting.....	13
11. Breakout rooms.....	14

1. Basic Zoom Setup

This setup will allow you to control who can enter the meeting and when.

Waiting Room

1. Find the “**Host Tools**” button on the bottom control panel (depending on screen size, it may be hidden under the “More” option)
2. Click the “**Host Tools**” button and the Host Tools tab will appear on the bottom right of the screen
3. Make sure the “**Enable waiting room**” toggle is enabled (white circle is on the right)

This setup will allow you to see who has their hand raised, who is trying to enter from the waiting room, and what is going on in the chat.

Participants

1. Find the “**Participants**” button on the bottom control menu
2. Click the “**Participants**” button and it will pop up to the right of the screen
3. At the bottom of the “**Participants**” tab, click on the “**More**” option
4. Make sure the “**Mute all upon entry**” toggle is enabled (white circle is on the right).

Chat

1. Find the “**Chat**” button on the bottom control menu
2. Click the “**Chat**” button and the chat will pop up below Participants
3. **Note:** You can message “**Everyone**” or select the **New Chat (+)** button to start a private chat

Resizing Zoom screen + controls

1. Hover over any corner of the Zoom screen until a double-ended arrow appears
2. Make your screen smaller or bigger, and watch as the bottom control panel adapts
 - a. A smaller screen will hide some of the controls under the “**More**” button
 - b. A larger screen shows all controls, but may take up a lot of space on your desktop

2. Changing your name and pronouns

1. On Video Screen

- i. Hover your mouse over your own video and click on the “**More**” (3 dots) button
- ii. Click on “**Rename**”
- iii. We suggest the following format so that participants can know who is facilitating this session:
 1. Full Name (pronouns) | Facilitator

2. In Participants Tab

- i. Hover over your name in the “**Participants**” tab and click on the “**More**” (3 dots) button
- ii. Click on “**Rename**”
- iii. We suggest the following format so that participants can know who is facilitating this session:
 1. Full Name (pronouns) | Facilitator

3. Turning the Camera and Microphone On / Off

1. Camera

- i. Find the “**Video**” button on the bottom control panel
- ii. Click the **Video** icon to turn the camera on and off
- iii. Do NOT click on the carat (^) option, which brings up the Video settings

2. Microphone

- i. Find the “**Audio**” button on the bottom control panel
- ii. Click the **Microphone** icon to turn your microphone on and off
 1. **Note:** Both facilitators and participants should mute their microphones when not speaking to prevent feedback and other audio issues
- iii. Do NOT click on the carat (^) option, which brings up the Audio settings

4. Un/Muting Participants

1. Muting

i. Individuals

1. On Video Screen

- a. Hover your mouse over the video of the person you want to mute
- b. Click on “**Mute**”

2. In Participants Tab

- a. Hover over the name of the person you want to mute in the “**Participants**” tab
- b. Click on “**Mute**”

ii. All Participants

1. Click on the “**Mute all**” button at the bottom of the Participants tab

2. Asking Participants to Unmute

i. On Video Screen

1. Hover your mouse over the video of the person you want to unmute
2. Click on “**Ask to unmute**”

ii. In Participants Tab

1. Hover over the name of the person you want to unmute in the “**Participants**” tab
2. Click on “**Ask to unmute**”

5. Recording

1. Live sessions are recorded only in case participants cannot attend and want to catch up later, or if they want to rewatch the session later. Recorded sessions are only shared internally with participant consent.

- i. **Start recording**

1. Click the “**More**” button on the bottom control panel
2. Click on the “**Record**” button

- ii. **Pause the recording**

1. Facilitators should pause the recording during breaks and while breakout sessions are occurring
 - a. While recording is in progress, click the “**Record**” button on the bottom control panel
 - b. Do NOT click the carat (^) option, which brings up the Recording settings
 - c. Click the “**Pause recording**” button

- iii. **Resume recording**

1. Facilitators should resume the recording after breaks and breakout sessions are over
 - a. While recording is paused, click the “**Record**” button on the bottom control panel
 - b. Do NOT click the carat (^) option, which brings up the Recording settings
 - c. Click the “**Resume recording**” button

- iv. **Stop the recording**

1. Facilitators should only STOP the recording after the live session is over
 - a. While recording is in progress, click the “**Record**” button on the bottom control panel
 - b. Do NOT click the carat (^) option, which brings up the Recording settings
 - c. Click the “**Stop recording**” button
 - d. If a popup menu appears, click the “**Stop recording**” button

6. Pasting text to the chat

1. In the “**Chat**” tab, click the chat box (where it says “Message everyone...”)
2. After copying your text, right click and select the “**Paste**” option
3. OR, type **CTRL + V** (Windows) or **CMND + V** (Mac) into the chat box to paste

7. Raise hand feature

1. We highly encourage participants to raise their “Zoom hand” instead of responding by unmuting or raising their physical hand. This saves time and enables facilitators to call on less talkative participants.
 - i. Find the “**Raise hand**” button on the bottom control panel (it may be hidden under the “**More**” option)
 - ii. Click on the hand icon to raise your “Zoom hand”
 - iii. Click the “**Lower hand**” button on the bottom control panel to lower your hand
 - iv. **Note:** When a participant raises their “Zoom hand,” you will see a hand icon on the participant’s video, next to their name in the “**Participants**” tab, and above the control panel at the bottom of the “**Participants**” tab. If the participant forgets to lower their hand, you can do it for them by hovering over their name in the “**Participants**” tab and clicking “**Lower hand**.”

8. Reactions

1. We highly encourage facilitators and participants to use reactions to interact with each other during the live discussion. This helps participants feel seen and encouraged by both the facilitators and their peers.
 - i. Find the “**React**” button on the bottom control panel (it may be hidden under the “**More**” option)
 - ii. Click on the heart icon to open the reaction menu
 - iii. Do NOT click the carat (^) option, which brings up the Reaction settings
 - iv. Select an option from the menu (clap, thumbs up, heart, laugh, wow, or tada) OR click on the “**More**” option (3 dots) to select other options

9. Screensharing

1. Share screen

- i. Find the “**Share**” button on the bottom control panel (it may be hidden under the “**More**” option)
- ii. Do NOT click the carat (^) option, which brings up the Share settings
- iii. Under “**Entire screen**,” you will see your Desktop automatically selected
- iv. Under “**Application windows**,” select the window you want to share and make sure it is highlighted
- v. Click the “**Share**” button

2. Screenshare controls

i. Floating Controls

1. When you share your screen, the meeting window will automatically be hidden and you will not be able to see the “**Participants**” or “**Chat**” tabs.
2. Instead, a floating control panel will appear, which can be dragged anywhere on the screen.
3. On the floating control panel, click the “**Participants**” button to pull up a floating Participants window. This will allow you to keep track of raised hands, reactions, and participants entering the meeting.
4. On the floating control panel, click the “**Chat**” button to pull up a floating Chat window. This will allow you to keep track of questions or comments in the chat.

ii. Normal Controls

1. To bring back the normal meeting controls, click the “**Show Meeting**” button on the floating control panel
2. You should now see the full meeting window as well as the floating control panel
3. To hide the floating controls, click the “**More**” button on the floating control panel and click on “**Hide floating meeting controls**”
4. In the meeting window, there should be two tabs at the top of the screen: “**Meeting**” and “**My screen**”
5. Click the “**Meeting**” tab to display the gallery of participant videos
6. Click the “**My screen**” tab to display the screenshare and a small column of participant videos

3. Pause / resume sharing

i. Floating Controls

1. On the floating control panel, click the “**Pause**” button to pause screen sharing
2. Participants will see a “frozen” version of the screenshare, but will not see any movement or changes to the screen
3. To resume screensharing, click the “**Resume**” button on the floating control panel

ii. Normal Controls

1. On the “**My screen**” tab, click the “**More**” (3 dots) button

2. Click on “**Pause share**”
3. Participants will see a “frozen” version of the screenshare, but will not see any movement or changes to the screen
4. To resume screensharing, click on the “**More**” (3 dots) button on the “**My screen**” tab and then click “**Resume share**”

4. Stop sharing

i. Floating Controls

1. On the floating control panel, click the red “**Stop share**” button just below the main controls

ii. Normal Controls

1. On the “**My screen**” tab, click the “**More**” (3 dots) button
2. Click on “**Stop share**”
3. OR, simply click “**x**” on the “**My screen**” tab

10. Spotighting

1. When participants act out a scenario, it helps to “spotlight” them to the rest of the group. This means their videos will automatically be displayed larger than other participants, which will limit distractions. **Selected participants must have their videos turned on**
 - i. To spotlight a participant, hover over their name in the “**Participants**” tab and click the “**More**” (3 dots) option
 - ii. Click “**Spotlight for everyone**”
 - iii. To spotlight the next person, hover over their name in the “**Participants**” tab and click the “**More**” (3 dots) option
 - iv. Click “**Add spotlight**”
 - v. Both videos should now appear larger on the screen
 - vi. To remove the spotlight, hover over each participant’s name in the “**Participants**” tab and click the “**More**” (3 dots) option
 - vii. Click “**Remove spotlight**”
 - viii. All participant videos should now be displayed on the meeting screen

11. Breakout rooms

1. Create breakout room

- i. Click the “**Breakout rooms**” button on the bottom control panel (it may be hidden under the “**More**” option)
- ii. In the popup window, increase the number of breakout rooms by entering a number or clicking the up or down arrows
- iii. The number of participants per room is automatically calculated on the bottom left of the popup window – typically, you’ll be setting up breakouts with a specific number of participants in each room
- iv. For random participant pairings, make sure “**Assign automatically**” is selected (this will be the case for the majority of the course)
- v. For assigned pairings, make sure “**Assign manually**” is selected
- vi. Click the “**Create**” button on the bottom right of the popup to create the breakout room (participants will not be moved into breakouts yet)

2. Breakout settings

- i. Click the “**Settings**” button the bottom left corner of the popup (a small icon of a gear)
- ii. Make sure the following boxes are checked (the rest should be left unchecked)
 1. “Allow participants to return to the main session at any time” – This is important in case participants have questions or need to be reassigned
 2. “Automatically move all assigned participants into breakout rooms when breakout rooms are opened” – This saves time when moving participants from the main session to the breakout
 3. “Automatically move all selected participants in breakout rooms to main session” – This saves time when bringing participants back to the main session after the breakout is over
 4. “Autoclose breakouts after [] minutes” – All breakout sessions in the course are timed and facilitators should input the time for each respective breakout
 5. “Countdown after closing breakout room” – Shows participants a countdown timer to let them know the breakout will be closing soon
 - a. “Set countdown timer” – The countdown timer should always be set to **15 seconds**
- iii. Click the “**Rename**” button to change the name of each room
 1. Note: this only needs to be done when specifically instructed
- iv. Click the “**Add room**” button to create more breakout rooms if necessary

3. Move participants between rooms

- i. If: 1) there are too many / too few people in one room, 2) two participants have already been in a room together (when randomizing breakouts), 3) a participant has been assigned to the wrong room, or 4) a participant has

requested not to be in a room with a specific person, participants can be moved to a different room.

1. Exchange

- a. To instantly swap one participant with another, click the “**Exchange**” (two arrows) button to the right of the participant’s name in the breakout room popup window
- b. Click on the participant you want to replace the first participant
- c. Each participant should now be in the other’s original breakout room

2. Move

- a. To move a participant to a specific room, click the “**Move to**” (arrow and square) button to the right of their name in the breakout room popup window
- b. Click on the new room you want to assign them to
- c. The participant should now be in the correct room

4. Open breakout rooms

- i. When the breakout setup is complete, click the “**Open all rooms**” button on the bottom right
 1. **NOTE:** Make sure all instructions have been pasted in the chat BEFORE opening breakout rooms or participants will not have access to them
- ii. **Participants will automatically be moved back into the main session after the breakout is over**

5. Broadcast

- i. We encourage facilitators to announce when it is time for participants to switch roles (halfway through the breakout session) or when there are 1-2 minutes left in the session
 1. **Text message**
 - a. On the bottom of the Breakout popup window, click the “**Broadcast**” button
 - b. Click “**Broadcast message**” and type into the chatbox to message all participants
 2. **Voice message**
 - a. Make sure your microphone is unmuted
 - b. On the bottom of the Breakout popup window, click the “**Broadcast**” button
 - c. Click “**Broadcast voice**” and then click on the “**Voice**” button
 - d. Click on the “**Voice**” button again to stop broadcasting

6. Recreate

- i. After the breakout session is over, click the “**Recreate**” button at the bottom of the breakout popup window and follow all the setup instructions if you need to set up another breakout session
