

Session 1: Orientation

Pework and Session Agenda

The focus of this course is to develop and support culturally responsive mentors. In order to build a supportive and trusting community in which to do this, we will spend some time getting to know one another. We will use our first week together for introductions and for an opportunity to share our own mentoring experiences and goals. This will also provide an opportunity to discuss the overall format of the course and expectations for dialogue.

Pework

Objective: Familiarity with the different roles a mentor may have, strategies a mentor may use to reach mentees, impacts that mentors have on mentees.

- **Activities:**

- **Pre-survey:** Complete the anonymous [pre-assessment survey](#)
- **Intake form:** Complete the [participant intake form](#)
